ABOUT US

Built for Pharma. Trusted Across India.

Cryonox has been safeguarding temperature sensitive shipments for India's leading pharmaceutical and life sciences companies. Based in Vasai, Mumbai, we specialize in **validated cold chain shippers, Gel and PCM cartridges, and customized temperature control solutions** designed for pharma, vaccines, biologics, and diagnostic labs.

Our solutions are engineered to meet the toughest compliance requirements while ensuring reliability, efficiency, and cost effectiveness.

WHY CRYONOX?

Proven Reliability

Each product tested under Indian conditions.

Custom Engineering

Tailored pack outs and shipper designs.

Strong Client Trust

Serving top tier pharma companies.

Made in India, Built for Global Pharma

Designed to withstand India's toughest logistics challenges.

OUR SOLUTIONS

Comprehensive Cold Chain Packaging

- **Validated Shippers**

Rigorously tested and supported with Validation reports . Available for chilled +2 to +8 C , Ambient +15 to +25 C , Controlled Frozen -15 to -25 C , and Frozen (-20 C to -80 C).

- **Non Validated Shippers**

Cost effective secondary packaging for controlled distribution. Ideal for payloads ranging from 1 to 30 kgs

- **Reuseable Cold Chain Boxes**

Aerogel insulated boxes with superior thermal retention. Robust, reusable, and impact tested.

- **Custom Solutions**

Route specific design and validation. Tailored pack outs for domestic and international shipments.

With CRYONOX , you can count on
**TESTED, PROVEN, AND CUSTOMIZABLE
COLD CHAIN PACKAGING.**

VALIDATION & COMPLIANCE

Audit Ready Packaging. Every Time.

We understand the stringent demands of the pharmaceutical supply chain. Every Cryonox solution is backed by **validation protocols, compliance support, and documentation** that meet Indian and global standards.

- Complete **Validation documentation**
- Lane qualification for Indian summer and winter conditions
- Pack out SOPs for uniform performance
- Refurbishment and reuse programs for sustainability
- Cryonox ensures that your packaging passes every audit without compromise.

1. Single-Use Validated Shippers (Chilled +2°C to +8°C)

Model	Payload (L)	Duration	Product Space (mm)	External (mm)	Tare Weight (kg)
CRX-05C	1.2	72 hrs	190×140×45	320×265×380	4.2
CRX-10C	7.6	72 hrs	290×175×150	400×380×340	8.0
CRX-13C	12.2	72 hrs	375×180×180	500×395×410	11.5
CRX-18C	17.6	72 hrs	350×360×140	590×480×390	18.5
CRX-30C	24.5	96 hrs	340×240×300	600×470×590	30.5

2. Single-Use Validated Shippers Ambient (+15°C to +25°C)

Model	Payload (L)	Duration	Product Space (mm)	External (mm)	Tare Weight (kg)
CRX-05A	1.2	72 hrs	190×140×45	320×265×380	4.2
CRX-10A	7.6	72 hrs	290×175×150	400×380×340	8.0
CRX-13A	12.2	72 hrs	375×180×180	500×395×410	11.5
CRX-18A	17.6	72 hrs	350×360×140	590×480×390	18.5
CRX-30A	24.5	96 hrs	340×240×300	600×470×590	30.5

PRODUCT SPECIFICATIONS

3. Single-Use Frozen Shippers (-20°C to -80°C)

Model	Payload (L)	Duration	Product Space (mm)	External (mm)	Tare Weight (kg)
CRX-05F	7.0	72 hrs	195×150×240	320×265×380	5.0
CRX-10F	18.1	72 hrs	290×260×240	400×380×340	9.0
CRX-13F	29.6	72 hrs	385×270×285	500×395×410	12.0
CRX-18F	17.6	72 hrs	350×360×140	590×480×390	18.0
CRX-30F	69.4	96 hrs	460×355×425	600×470×590	23.0

PRODUCT SPECIFICATIONS

4. Multi-Use Shippers (Cryar – Aerogel + PCM) Launching Soon

Model	Validation	Temp Range	Duration	Product Space (mm)	Payload (L)	External (mm)	Weight (Kg)
Cryar 2L Express	Validated	2–8°C / 15–25°C	48 hrs	125×125×125	2.0	230×230×240	4.15
Cryar 10L Max Durable	Validated	2–8°C / 15–25°C	72 hrs	229×229×199	10.4	380×380×380	13.2
Cryar 25L Max Durable	Validated	2–8°C / 15–25°C	96 hrs	302×302×272	24.8	475×475×475	23.8
